

Wrekin View Primary School & Nursery

Prehistoric Workshop Day

Tuesday 17th November

Step Back in Time for an Unforgettable Day of Prehistoric Discovery!

We are incredibly excited to be welcoming a full-day Prehistoric Workshop to school. Running from 9:00am to 3:00pm, this immersive experience will transport the children thousands of years back in time, allowing them to explore, create and discover what life was really like during the Stone Age, Bronze Age and Iron Age.

Throughout the day, children will become prehistoric historians, craftspeople and explorers as they take part in a wide range of exciting hands-on activities.

Morning Activities

Children will experience everyday life in prehistory by:

- Grinding grain into flour using authentic-style saddle and rotary querns
- Making their own butter
- Using bow and pump drills
- Building miniature prehistoric shelters
- Creating a small wattle wall

Virtual Reality Experience

A major highlight of the day will be the opportunity to use Virtual Reality (VR) headsets. Through this incredible immersive technology, children will be able to step inside the prehistoric world and explore famous sites such as Stonehenge and Men-an-Tol as if they were really there. Rather than simply looking at pictures in a book, they will be able to experience these remarkable monuments from a first-person perspective, making this a truly memorable part of their learning.

Children will also have the chance to handle and investigate a collection of replica artefacts from the Stone Age, Bronze Age and Iron Age, helping them develop a deeper understanding of how people lived, worked and survived throughout Britain's prehistoric past.

Afternoon Activities

The afternoon will focus on prehistoric clothing and textiles, with children taking part in practical activities such as:

- Carding wool
- Spinning fibres
- Weaving
- Playing a Stone Age survival game
- Making their own cordage bracelet

Headteacher Mrs Atherton

Learning
Community Trust

They will also handle a range of raw and naturally dyed materials , discovering the skills and resources prehistoric people used to create clothing long before modern technology existed.

This promises to be an unforgettable day packed with hands-on learning, ancient artefacts, traditional crafts and cutting-edge VR experiences. The workshop has been designed to bring the prehistoric curriculum to life in a way that is engaging, exciting and memorable, giving children a unique opportunity to experience history rather than simply learn about it.

Payment details can be found on ParentPay.

Many thanks,

Mrs Heyes
